Cylinder leak test & in-test expiry date records

In-Test refers to the mandatory Hydrostatic Testing and Date Stamping of all Pressure Vessels at manufacture and every subsequent 10 Years

Business name				☐ Automotive	☐ Stationary (please tick)
RTA Number					
					Danie womben
Quarter ending					Page number
Refrigerant type	Cylinder owner	Cylinder serial number	Date leak tested	Expiry date	Name of person who leak tested the cylinder
R134a	Gas Supply Co.	MT122345 AMP	1/5/2017	1/10/2024	John Citizen
Insert 'Nil' where no cylinders are held					

As a holder of a Refrigerant Trading Authorisation you are obliged to leak test any vessel containing refrigerant in your possession, irrespective if the vessel is owned or hired. These tests should be conducted as often as deemed appropriate relative to usage and potential leakage but not less than each quarter.
